GSA Schedule Offerings

In May 2013, EnerNex was awarded a five-year General Services Administration (GSA) Schedule Contract. This widely used government contract allows federal agencies to secure EnerNex’s energy consulting services at pre-negotiated rates, terms, and conditions. Prices have already been deemed fair and reasonable, contracts are in compliance with all applicable laws and regulations, and acquisitions through GSA Schedule Contracts are issued using full and open competition. Purchases can be made directly from a Contractor’s GSA Schedule Contract, eliminating time-consuming responses to complex RFP’s and lengthy negotiations.

Description of GSA Schedule Offerings

EnerNex is approved by the GSA to provide services under Special Item Numbers (SINs):

871-209, INNOVATIONS IN RENEWABLE ENERGY

Innovative approaches to renewable energy. These might include, but are not limited to, new developments or improvements providing renewable energy and managing energy through biomass conversion, solar energy, fuel cells, geothermal energy, hydropower (tidal power, wave power, tidal stream power, waterwheels, and hydro electricity), wind power or other sources, and the maintenance of renewable energy systems. These approaches should be capable of providing renewable and/or sustainable energy and sustainability services that are more carbon-neutral, thereby lessening dependence on traditional non-renewable, fossil fuel sources of energy such as coal, oil, natural gas, and propane.

871-211, ENERGY CONSULTING SERVICES

Contractors shall provide expert advice, assistance, guidance or counseling on energy related projects or initiatives to assist agencies in adhering to energy legislation and policy such as EPACT 2005, Executive Orders 13423 and 13514. Consulting services covered by this SIN include:

- Energy management or strategy
- Energy program planning and evaluations
- Energy related studies, analyses, benchmarking and reporting such as feasibility studies, vulnerability assessments, and energy security
- Assistance in meeting energy efficient building standards such as Leadership in Energy and Environmental Design (LEED), Green Globes and Energy Star and in meeting federal renewable energy mandates.
- Advisory services in obtaining alternative financing for energy projects such as Energy Savings Performance Contracts, Power Purchase Agreements or Enhance Use Leases
- Consulting on carbon emissions trading programs
- Consulting on where to obtain renewable energy credits/certificates
- Consulting on greenhouse gas measurement and management
- Strategic sustainability performance planning
- Consulting on obtaining high performance sustainable buildings
- The implementation, testing and evaluation of networked energy management systems and services that utilize Internet Protocol – Next Generation (IPv6) enabled systems

Examples include: microgrid design, RFP development, and economic/grid modeling and simulation.

GSA Schedule Offerings

Agencies eligible to use the GSA schedule

Federal and Executive Government Agencies are eligible to purchase through the GSA Schedule including, but not limited to:

- Army Corp of Engineers
- Commerce, Department of Energy
- Department of Homeland Security
- Department of Navy
- Department of Nuclear Regulatory Commission
- National Science Foundation
- Tennessee Valley Authority

For a full list of eligible agencies, visit gsa.gov/portal/content/104212

Features and benefits of the GSA schedule contract

- Ease of Ordering
 - FedBizOpps Synopsis is not required
 - Shortened Procurement Cycle and Reduced Administrative Costs — Schedule orders average 15 days while open-market procurement averages 268 days
 - Easy payment options — The government issue charge card, GSA SmartPay®, is accepted for all Schedule orders under \$2,500
 - GSA Schedule pricing is pre-determined by the GSA to be fair and reasonable
 - All applicable regulations and competition requirements — including FAR & Competition in Contracting Act — have been met.
- Note:** interim FAR Rule requires that ordering agencies receive 3 offers for orders over the simplified acquisition threshold (\$150,000), unless the RFQ is posted on eBuy which meets “fair notice” competition requirements

>> Contract Number + Details

The EnerNex GSA Facilities Maintenance and Management Schedule o3FAC Contract Number: GS-21F-104AA
Valid through March 28, 2018 and allows for three five-year extension options.
